PROVINCIAL PROGRESS.

The progress of the Province of Buenos Ayres last year was something most remarkable. Railways, telegraphs, new towns, new colonies, new estancias in every direction; and we are safe in saying that Buenos Ayres progressed more last year than in the twenty years previous.

Dr. Rocha, the energetic Governor of the Province, may feel proud of the very able summary of his year's administration in Tuesday's *Diario*. In every branch, in every department, we find administrative go-aheadism; and we can measure his great talent by the splendid public works he has framed, ordered, and carried out since the people of Buenos Ayres had the good luck to elect him Governor.

If the prosperity of the nation is dazzling, that of the Province of Buenos Ayres is none the less refulgent. Go where we may, look where we will, from Patagones to Melincue, from Tranqueluquen to Almagro, wherever the jurisdiction of Governor Roach exist, there we find progress, go-aheadism and improvement.

But for Dr. Rocha the Southern Railway would to-day have its terminus in Azul, and the towns of Nueve de Julio and Pergamino would be only approachable by diligence or bullock-cart, or *recado*; but the Governor has given a new spurt to everything. In another month the rails to Bahia Blanca will be completed. The City of La Plata, which even baffled our own faith, is no longer a dream but a positive fact; and, if we keep marching on in this province as we are going, Buenos Ayres will soon be the Belgium of all South America.

Political opposition loses all its influence and all its power in the presence of a material prosperity, and improvement that blesses the whole country with abundance. The province of Buenos Aires never before thrived as it does now; industry and enterprize have dethroned the clubs and their politics. Prosperity smiles on the land. Whoever the ascetic be who deplores the change is of the past, and unable to keep up with the headlong march of affairs. Who cares one iota about the overweening influence of authority at elections, so long as that authority concentrates its efforts on progress, industry and improvement? The days are over when we had pistol shots at our church doors and broken heads at elections, and the roof of the Merced Church is no longer stripped by political freemen who to-day are stocking estancias at Gainza, or cutting quebracho colorado sleepers in the forests of the Gran Chaco.

Three cheers for Governor Rocha and his Government, and our only hope is that his successor, Dr. D'Amico, will inherit the same progressive spirit, the same administrative go-aheadism that which has raised to the foremost rank in the River Plate, Dardo Rocha and his Ministers.

CHARITABLE SOCIETIES.

To judge by the number of churches and chapels, of theatres and of our concert-halls, and of newspapers, the people of Buenos Aires are the most religious, pleasure-loving and enlightened community in South America; whatever may be urged against judging by appearances, there is no doubt that few cities are as charitable as B. Aires. The numerous hospitals, asylums, orphanages, and Benevolent Societies are the best proof of philanthropy and herein we may compare favourably with any other city in the civilized world. Charity appears to grow with civilization, and it is certainly one of the great redeeming features of what may be called the materialistic advance of the world. People in this country are always ready to put their hands in their pockets to relieve suffering humanity, and one of the most successful means of securing a livelihood about town is to beg tattered and torn, with a patch over one eye and a walking-stick; although begging on horseback has gone out of fashion, begging on foot is increasing to an alarming extent, owing to the indiscriminate street beneficence of the population.

Owing to the cosmopolitan formation of Buenos Aires it need not be wondered at if people show as much readiness to relieve the victims of the inundations of the Po or of the Ischia earthquake as to help the unfortunate people nearer home in Catamarca, Rioja and Santiago del Estero; but there is a permanent charity of much higher value, patronized by the matrons of Buenos Aires, who form the Sociedad de Beneficencia; these meritorious ladies lend all their efforts and attention to the relief of the poor, and there is emulation amongst the members as to who will do the most good. These ladies have under their maternal superintendence the majority of charitable institutions in this city, such as the "Casa de Expositos, Casa Correccional, Casa de Huerfanas, Asilo de Huerfanos," etc. This long list of charitable establishments is apt to mislead one, as it may point to great misery in the town; but the contrary is the case, and these institutions are filled with sick and poor, who in Europe would be considered rather well off. During the past year all these charitable institutions were crowded, as will be seen by the following figures:—

"Asilo de Huerfanos:"—180 boys entered and left; 111 were placed by the 'Defensores de Menores' or tutors; 79 girls entered and 47 left; 2 died; there are at present 302 orphans of both sexes in the establishment.

"Casa de Huerfanos:"—32 entered and 23 left; there are at present 224 in the place.

Women's Hospital:—920 entered up to the end of November, which with those of 1882 makes a total of 1,082 for last year; 710 left; 221 died and 151 are under treatment.

"Casa de Expositos;"—there were 966 foundlings of both sexes in the place on the 30th of November.

"Manicomio de Mujeres:"—at the close of 1882 there were 401 female lunatics in the establishment; 173 entered in the establishment; 173 entered in 1883 and 137 left; there are at present 450.

"Casa Correccional del Buen Pastor:"—balance of 1882, 145; 156 entered in 1883; 159 left and one died. There are at present 142; the needle work of the inmates fetched $2,246-71 m/n., during the year.

Children's Hospital—355 entered in 1883; 242 left and 79 died. There are at present 34.

"Consultorio Oftalmolojico:"—418 diseased were treated in 1883, as follows:—

NATIONAL RAILWAYS.

The following figures of the returns of the National and several guaranteed railways of the Republic, for the first nine months of last year, will be read with interest, as the increased receipts for goods and passengers traffic show the growth of the country. Railway returns form a more reliable barometer of the progress of the Republic than the figures of the Custom House. The following are the figures for the nine months, ending September 30th 1883:

	Gross returns	Expenses	Net returns
Central Arg.	$1,814,187	$693,390	$1,116,797
East Arg...	148,706	114,687	34,019
Campana....	234,722	136,140	98,582
Central North	818,355	423,316	425,039
Andine (ten months)...	328,025	183,977	134,118

Basing calculation on the above figures, we may expect the net returns of the year to reach—

Central Argentine...	$1,489,056
East Argentine.....	45,348
Campana.....	131,436
Central Northern....	566,712
Andine Railway....	178,824

These calculations are under the mark; the figures, if we except those of the Eastern Argentine Railway, are satisfactory. The returns of the Central Northern are much above those of former years, and the receipts are increasing every month. The Andine Railway, [illegible] year; that [illegible] of cows [illegible] nerally sup- [illegible] close attention [illegible] lowing article [illegible] raph on this all- [illegible] doza, it will be one of the best paying in the country, in view of the abundance and variety of products of the Cuyo Provinces; the Central Argentine Railway will also much benefit by the completion of the Andine Railway. The great drawback of the Andine and Tucuman lines during 1883 consisted in scarcity of rolling stock; even on the Central Argentine Railway the demand was such that several hundred more waggons and locomotives were ordered in Europe; this rolling stock is gradually arriving from Europe, and in the current year the Andine and Tucuman lines will have the following numbers of waggons, locomotives and baggage waggons; these figures will be of interest to British manufacturers:

	Central Northern	Andine
Locomotives	75	55
Passenger carriages	82	61
Baggage waggons	35	15
Waggons	1478	506

These numbers will be completed in the first month of this year, but at the rate the Interior is going ahead double this number will be needed next year. Nearly all the locomotives are supplied by the Baldwin Company in Philadelphia. The Central Argentine Railway has about as much rolling-stock as the Andine Railway, but the waggons and engines on hand are too few for the great traffic of this splendid trunk line; its goods' traffic has swelled to 45 per cent more than in 1882.

The extension works of the Andine and Tucuman Railway are being pushed ahead with the greatest activity; the rails of the latter are a few kilometres distant from Mendoza, and he earthworks are nearly completed to the town of San Juan, which will be the terminus of the line. On the Tucuman line the earthworks now reach kilometre 149 beyond Tucuman, and the Saladillo tunnel has been completed, the first tunnel constructed in the Argentine Republic. The extension from Frias station to Santiago del Estero is progressing; 162 kilometres of forest have been cleared in a breadth of 30 yards, and the permanent way already reaches kilometre 35; the permanent way could be laid down more rapidly, but rails are forwarded very slowly, owing to the deficient rolling-stock on the lines from Rosario to Tucuman.

The Eastern Argentine Railway shews some improvement; during the nine months 16,000 passengers and 37,500 tons of goods were conveyed along the line. This line will never pay until it is extended to the North and West; if the Honoré and Bower proposal to extend the line to Misiones and Corrientes is carried, the line may become one of the most profitable in the Republic. The Campana line shews steady progress, but it will only become important when extended to the town of Rosario, its natural terminus.

Report to the Shareholders at the Twenty-first Annual General Meeting, to be held at the City Terminus Hotel, Cannon Street, London, on Tuesday, the 18th December, 1883.

The Board now submit their Twenty-first Annual Report.

The Extraordinary General Meeting, held on the 30th October, will have prepared the Shareholders for a less satisfactory statement than the Directors have generally been able to present.

It is already known to the Shareholders that the value of the Securities stolen by the late Secretary exceeded £116,000. The whole of this sum has been provided for, whilst the usual ample provision has also been made in the estimates for bad and doubtful debts.

The explanations given at the Extraordinary General Meeting have already shown the Shareholders how this large requirement would be met, whilst at the same time the assurance was renewed that a dividend of 4 per cent would also be distributed.

The payment of this dividend, which makes a distribution of 8 per cent for the year, coupled with the full provision for the stolen securities, and the fact that no appeal to the Reserve Fund has been found necessary, will convince the Shareholders of the strong financial position of the Bank, and justifies the policy of making ample provision for bad and doubtful debts—a policy always urged by the Board, and always approved by the Shareholders.

A balance of £5,562 8s. 9d. will be carried forward to the credit of Profit and Loss Account for the ensuing year, the Reserve Fund remaining as before at £185,000.

The Board have the pleasure of announcing the appointment of Mr. E. Ross Duffield as Manager at the Head Office in London. This gentleman was for many years Manager of the English Bank of Rio de Janeiro in that City, and is possessed of great Banking experience. The Directors have therefore felt every confidence in securing his services.

LONDON LETTER

(From our own Correspondent.)

THE CONVICTS, WARDEN AND WATTERS.

Nov. 27th.

Mr. Justice Stevens was the very man to inflict severe sentences on Warden and Watters. Twelve years' penal servitude to each of them he seemed to consider a mitigated sentence. He knocked off two years, from the canonical fourteen, out of regard to the "unimpeachable characters, of both gentlemen. Mr. Davis, the absconded and not yet caught secretary of the San Francisco Bank, is another gentleman of "unimpeachable character." But, as Mr. Stephens observed, neither previous character nor contrition, after the crime, can be allowed to weigh in these cases; and as for the "character," it simply gives to these men the means of defrauding, by placing them in responsible positions, and is only a character which has not been found out. The sentence in the public press has been received with a chorus of approval, whilst it is admitted that it is severe. Outside, that is to say in private circles, and particularly on the Stock-Exchange, where the habits of the craft are known, the sentence passed on Watters is by some considered vindictive. It must be owned the evidence showed that latterly, at least, and at the "audit," upon which the Judge laid great stress, Watters was clearly an accomplice, even if at first, when understanding Warden's business, it was not his business to inquire too strictly into the standing of the man or the reality of the supposed syndicate of River Plate speculators, for whom Warden might have been acting. There was something pathetic and impressive in the speech made by Watters after his condemnation in which he protests that "Before God I am innocent—I am the victim of a perjured villain and thief." His counsel, Mr. Edward Clarke, made the most of the fact that the evidence of a convict could not be relied upon. You will know that Warden pleaded guilty and was sentenced at once, so that he could give evidence without in criminating himself in the trial of Watters, who pleaded "not guilty." The Judge was not disposed to agree with Mr Clarke that the evidence of Warden should be thrown aside, and although the jury were to think of Warden only as a convicted thief, it did not appear that he could have then any motive left for concealing the truth, unless it were from a feeling of anger against Watters, and as that did not appear it could only be guessed at. The judge directed the jury not to throw aside the evidence of Warden as worthless, but to see how far it was corroborated by circumstances independent of it. He laid stress on the fact that Watters had signed cheques for large amounts to redeem the securities for the inspection of the auditors. The end of it was, that after an absence of twenty minutes the jury found the prisoner *guilty*. There is no doubt that Judge, Jury and prosecutors, in face of the repeated and scandalous instances of fraudulent employees, were determined to make an example, and, so far, although we have not yet the maturer opinions of the weekly and legal press in regard to the sentence on Watters, the public seem to approve. In regard to the great mystery, the "key question," when Mr. Clarke, the prisoner's counsel, was beginning to raise it, he was evidently stopped by the Judge, who said—"Is it necessary to go into all the details as to how these robberies"—the abstraction of the securities—"were effected. It was quite obvious," he said, "that a very artful fraud had been perpetrated. No doubt, to carry out this there must have been a combination of fraud with a director, which was not alleged, or a defective system, or negligence which the outside world had a right to assume would not exist. It was hardly, however, a matter for that court."

Among the bank officials examined were Mr. W. M. Clarke, the transfer and securities clerk, and Mr. Robert Langton, the accountant, who deposed that at one of the interviews with Watters, the latter observed that he understood that Warden was an influential man possessed of means, but he—Langton—never said he thought Warden was "plunging," but he had at one time been a little uneasy on account of the class of people he was associating with. Mr. G. Zimmerman, a Director, and the Chairman, Mr. G. W. Drabble, were also examined. In cross-examination the latter gentleman stated that "it was incomprehensible that Watters should have had such large transactions with a bank manager. He had no business to do so. Actions had been commenced against certain stock-brokers, and he believed it was alleged in them that Watters took the securities with a knowledge of the theft."

As for the amounts of the transactions by Watters and Warden, the dealings in two years amounted to £2,915,294, while in what appears in Watters' books as the "general account," a name, he says, invented by Warden, the purchase in three mounts amounted to £14,742,709. Of course, any one acquainted with Stock-Exchange business, will know that these fabulous-looking amounts are easily summed up, and often involve comparatively insignificant amounts in the way of differences in cash or securities to cover. If, as the *Times* says, Watters, with a light heart, gave a cheque for £62,000, with £73 to his credit at the bank there is a way of managing all that, and it is done every day.

In the evidence, it appears that Mr. Warden was accustomed to give what he called "River Plate parties." Mr. Watters visited him at his clubs, the "Wanderers" and the 'South Americans," when the latter was in existence. Mr. Warden said, his "position in the River Plate Bank enabled him to gather around him influential merchants, and he was moving in good society then." Mr. Warden forgot, I think, to state that, as a staunch Conservative, he was also a member of the "Constitutional Club." What the British public may understand by "River Plate parties," in any sense of the word, is ludicrously illustrated in this quotation from the speech of Mr. Edward Clarke, Watters' counsel. He said—"The jury must take into consideration the position of the accused, Watters had always believed Warden to be a man of unimpeachable character and a man of influence and means, and there would be nothing at all improbable in his having men of capital behind him, able and desirous of speculating on the Stock-Exchange, through him. Warden was, no doubt, well known, in the *Brazils* and in many *smaller States of South America*, which seemed to exist only for the purposes of Stock-Exchange transactions in London!

When you write your next "Review for Europe," and feel yourselves at all above concert pitch, remember poor Warden and his "River Plate parties."

ROSARIO.

(From our own Correspondent.)

December 28th.

Our province is sorely exercised by the late measures of the Administration in reference to the reforms that the last convention made in the organization of the Municipalities throughout the province. It was supposed that the new regime only affected the *personnel* of the corporate bodies, and instead of two Councils, eliminating what is called the Consejo Ejecutor, replacing it with an Intendente, partly subject to, and partly independent of the Consejo Deliberante, something like the system in practice in Buenos Aires. This is generally accepted as an improvement on the unweildy system of two Consejos, which were always in antagonism, and their two Presidents continually at loggerheads.

To the astonishment however, of every one, the Government has given the new law an interpretation that was quite unexpected; it has suppressed all the Municipalities in the province, except those of Rosario and Santa Fe, with an arbitrary decree, which says, that no colony or town is worthy of governing its own local affairs unless there be a population of five thousand souls. Apart from the two towns mentioned, there is no other containing that number; and as the area of each colony is limited to ten or twelve square leagues at the utmost, none of them will contain five thousand persons, as the land is divided amongst the families at the rate of 500 acres and upwards to each, and the colony towns or centres, can never, except under very exceptional circumstances be more than large villages of from 500 to a couple of thousand inhabitants. This is natural. Each colony will have its centre where a few stores and artezans will suffice to supply the ordinary wants of that special colony. Thus we see that the centre of Esperanza, the oldest colony in the province, is a small town of not over 1000 inhabitants, and the three centres of the colony of San Carlos, all together, do not number 750. Cañada de Gomez, the centre of a great agricultural region and on a line of railway, with a considerable population of wealthy English estancieros to the north that make that place their rendezvous, giving it advantages that no other spot away from the river possesses, has not a population of a thousand, and not more than 2500 in the whole colony; of course, for the purpose of the Decree, the population of each colony will be taken, and when once its available space is filled up, the tendency of the population will be to diminish, as the more prosperous of the colonists will buy the concessions of the poorer ones who will move to new places. This has happened in Roldan and Carcarañá, where every inch of the land is sold or rented, and yet the population is not more than half of what it was five years ago.

These facts, I suppose, were known to our sapient governing authorities and they have fixed a minimum of 5000 inhabitants as giving a right to demand communal government, simply because it will be almost impossible for any single colony ever to have that number. The Municipalities are thus merged in the provincial administration, and apart from the Municipal taxes which Government will of course seize on, it facilitates the placing of the province more strictly under an arbitrary military rule. The new Gefes Politicos, who in a way, take the place of Communal Government, are all taken from amongst the military cliques who abound in Santa Fe like mushrooms on a warm spring morning, but who are by no means as useful or savoury.

The people of Esperanza have protested, and besides a petition to the Provincial Government, have sent one to the President. I do not suppose that Genl. Roca, much as he might deserve it, has any power to put a stop to the proceedings of foolish provincial administrations, but he may remonstrate in a friendly way with our Vice-Governor, Mr Pujato. The Decree suppressing the Municipalities in evidently aimed at the brain and arms of the province … Santa Fe, to such an extent that … Sarmiento remarked that Santa Fe belonged to foreigners These foreigners, however, have give already to the nation some 50,0… Argentine citizens, as is proved by … fact that the population has incr… from 80,000 in 1865 to 160,… 1883; and there is every reas… lieve that what with wars, re… exportations, voluntary exi… scription, the native … actually diminished in… years I have mentione…

EDITOR'S TABLE.

The holidays are over, and we shall have no more of them till Carnival, for which some will be thankful and others sorry. The weather was grand on New Year's Day, and the givers and receivers of "Gifts" looked equally jolly. The shopkeepers say that they never sold so many wares of all kinds at this season before. This shows abundance of money, and proves our theory that every man in the country made money last year. May it be the same in this Year of Grace 1884.

The sensation of yesterday was that the Magellan has brought a yellow fever case from Rio to Montevideo, and the port doctor and his "ayudante," who went on board to "visit" her were kept there, and went with the ship and all to the Lazaretto on Flores Island.

The advices from Brazil about the Emperor's health are conflicting: The official bulletins of the doctors say that all danger has disappeared, but the newspaper dispatches are in an opposite sense. It would be a sad thing for Brazil if anything were to happen to its modal monarch.

We feel great pleasure in saluting our esteemed colleague *La Republica* on its 18th anniversary. Also *La Libertad*, on its elegant new appearance. It came out in the morning on New Year's Day, just to show the public what it could do, but went back to its first-love—the shades of evening—yesterday. We had two new colleagues on our table yesterday—*Los Tiempos* and *El Echo Artistico*. The "novedad" about the last mentioned is that every man in it, from the editor down, is a negro. We wish both colleagues the best success.

The *Pampa* tells a story of an ancient Member of Congress who sent a beautiful looking glass in the shape of a heart to one of the belles of the season. Her family, after much ado, found out the old gentleman's name and sent the gift back. This was too hard, as the old party evidently meant nothing but the most respectful admiration.

We thank Messrs Green and Johnson for the beautifully illuminated Almanack of the London and Provincial Fire Insurance Company which they sent us yesterday. They are agents for the Company, the subscribed Capital which is a million sterling.

Some of the papers say that a bull-fight is being organized on the sly at the Once de Setiembre. We dont believe a word of it.

There will soon be some relief from the 'small change' squeeze. The National Bank has some of its new five and twenty cents notes ready for issue, and the fifty cent notes will be ready about the end the month.

Our colleague … anticipates national disaster if the … pleasant vices in question are not … at once abandoned. It is a remarkable … fact that the greatest man Brazil has … ever had—the late Viscount Paranhos … —knew nothing of whist, long or short, … till he was taught it by the chief edi… tor of this paper, during a trip to … Paraguay which the latter had the … honour of making with the deceased … statesman. We are requested to state that Mr. Adolfo Negrotto's well and favourably known "Colegio" reopens to-day, after the vacation. This school is only four years in existence, yet now holds its head amongst the best.

The biggest bull-fight they ever had in Montevideo came off there on New Year's Day. Seven thousand persons were present, and half-a-dozen bulls, and as many horses, were butchered to make a Uruguayan holiday. Nice, mild people are our "vecinos!"

There was a $100,000m/c blaze in a grocery in Calle Buen Orden yesterday morning at 1 a.m. The explosion of some spirits of wine did it. The undertakers made nothing out of the fire.

The new Swimming School in Calle Piedad will be opened on Saturday next. "Viva!" We hope the charge for a swim wont be too high, or high at all.

Governor Rocha and a select party went off to La Plata yesterday and will remain there till Sunday next.

The experts have reported on the "coal" discovered on Mr. Reta's estate in Mendoza. The "informe" is more an excuse for the 'coal' being worthless than anything else, and will hardly enable Mr. R. to get the prize offered some years ago by Congress for the first genuine "black diamonds" found in this republic.

We thank our valued collegue *L'Operario Italiano* for the very nice "strenna" it sent us yesterday, in the shape of a neat and lively almanack for 1884.

The Italia, with 900 emigrants on board, got aground twice on Monday while entering the Boca, but finally got to the wharf all right. The immigrants landed on New Year's Day, and when they were all sent up town, the captain entertained Mr. Navarro, the Commissary General of Immigration, at a sumptuous breakfast on board.

The Maskelyne has made a splendid run out this time—22½ days. We salute her gallant and popular commander, Chevalier Hairby, and congratulate him.

The *Revista-Medica* reports a full average of ordinary complaints during the past fortnight, but nothing even approaching anything in the 'sopecho so' line; so dear, dirty Buenos Aires may rest and be thankful.

Kidd's Guia for January was sent round yesterday. It is considerably enlarged and improved, the most important of the additions to its valuable contents being the Passenger Tariffs for all the railways in the country.

Messrs Lacroze gave all their old drivers and guards and some of the new ones an increase of $500m/c in their wages as a New Year's Gift.

THE LATE JAMES ROJAS, ESQ.

Pilcino, Dec. 17th, 1883.

To the Editor of the *Standard*.

Buenos Aires,

Sir,

If I had been still in Buenos Aires I might have gone on bandying jokes with you on the subject of the late James Rojas; but at this distance the wit would be all on your side and the staleness on mine; under the circumstances therefore, I shall have to answer you seriously.

I possess the book to which you refer me, published, as you say, by the Tucuman Government; but it is not as you suppose an authority at all on the subject. From the historical point of view it is sheer rubbish, and I say it advisedly, for I am preparing a pamphlet for publication in which I collate this Official History with the facts as contained in the Authorities therein cited. I have turned up the passage in page 36 and there find that the mistake this time is yours and not the book's, which simply says: "Pero el primer conquistador del Tucuman fue Don Diego de Rojas." You and many others confound "El Tucuman" with San Miguel "del" Tucuman, called now simply Tucuman. "El Tucuman" is a country, and as such cannot be said to be "founded," though it may be "conquered" and governed. Tucuman as a city could not well be founded and conquered by one and the same person; if Rojas founded it, then could he not conquer it, and if he conquered it surely he must have found it ready made to conquer.

This new difficulty has been introduced by your expanding the word "conqueror" into "founder," conqueror and Governor." The t… his that James Rojas got a gr… not be conquest of Tucuman, one … the … vinces of the wide dominion … cas of Cuzco, on the strength of whi… grant he "tripped it through" the … lands, but, as ill-luck would have it, … ead of conquering, Tucuman, the … Sa… conquered him; he died of a … d by a poisoned arrow and was … d under the soil of the country he … to govern—Rojas's companions, or … warriors rather, returned empty… ded to Peru where many of them … ished in the civil broils.

El Martes 22 de Enero de 1884
A las 2 en punto de la tarde
Venderemos a la mas alta postura y a los plazos arriba indicados 32 leguas de esp endido campo, ya celebre por sus ricos pastos tiernos, sus abundantes aguadas y la fertilidad de sus tierras.
Los numeros en venta son el 11, 19, 20, 21 y 22 de la letra A, y el 1, 2 y 9 de la letra D, Seccion 8, Territorio Nacional.
Todavia existen alli los vestigios de las Tolderias de los Ranqueles, sus rancherias, sus corrales y sus jagüeles de riquisima agua.
Estos campos y los inmediatos a la Ciudad de Buenos Aires, son los verdaderos
Campos de pasto tierno
Los primeros por haber estado en el poder tranquilo de los Indios por mas de un siglo, y los otros por haber sido ocupados por los cristianos.
Los campos de pastos duros son los de la zona intermediaria, donde ni el indio ni el cristiano se aventuraban a permanecer por temerse mutuamente.
Solo asi puede racionalmente esplicarse el hecho notable de que en la seccion octava se encuentran pastos tiernos iguales a los campos de adentro que valen hoy pesos 3,000,000 la legua.
El informe del agrimensor Alsina sobre estos campos dice textualmente asi:
"Estos campos que fueron ocupados por los indios Ranqueles se encuentran respecto de calidad y cantidad de pastos, montes, pisos, etc, en identicas condiciones que los campos de Loubique y Poitagüe, cuya superioridad es publicamente conocida."
"Dice el agrimensor Pico que los arboles de esta region son inmensos, entre ellos los hay que miden cuatro y media varas de circunferencia en su tronco principal abarcando con sus ramas un diametro termino medio de 3 varas."
Apesar que algunos colocan el Pueblo Victorica, ya una poblacion de 1500 almas, en el lote 23, los propietarios de estos campos tienen datos particulares de personas de esa localidad que les permiten declarar que se encuentra en el 22 el lote lindero, o sea en el corazon de estos campos.
Fuera de una infinidad de jagüeles de agua riquisima el campo tiene las lagunas siguientes—Poitagüe, Aucamelué, Lui Carreta, Tirlin, Utra Trigoin, Echoué, Quillai Lauquen, Quitripil, Antiqueo, Guada y varias otras de lluvia sin nombre.
Por planos y folletos ocurrir a nuestra casa, Alsina 78.
Las condiciones de pago son ¼ parte al contado, y el resto a uno y dos años de plazo sin interes y con pagares hipotecarios.

Cedulas A	102
Cedulas E	89
Cedulas F	86½
National Bank Shares....	130½

The New Year has opened with marked bearish influences at the ring; both Cedulas and shares ruled flat in the extreme, the former dull, the latter weak. There is an uneasy feeling amongst the share bulls, as some holders have no doubt sold out after the dull experience of the last two months. A few hundred shares changed hands for cash during official hours at 130 and 130½; close on 3,000 were sold for the end of the month; rates opened with faint attempts at firmness at 131½; the market was pushed to 132 when the fall began and only stopped at 131; at this rate the market closed with sellers. The market ruled more active than is generally the case after a settlement day, and the bearish feeling in the operations threw some life into the speculation, but a month of further stagnation is imminent, as the heavy bulls continue their tactics of November and December. A strong bearish speculation will give life to the market, and the present turn in the aspect of affairs is welcomed as the signal for renewed activity.
Cedulas ruled very dull this morning, and the market looked tired. Several hundred thousand Cedulas have emerged from the hands of speculators into those of capitalists, and the number of Series E floating in the hall has been considerably reduced. The stock, nevertheless, is weak at 89. A few thousand Series A changed hands for cash at 102; 31,000 Series E were sold at 89 for cash, and 129,000 for the end of the month at the same rate; the market closed with sellers. A fair amount of Series F changed hands for cash at 86½; the new Series, it is expected, will be thrown in large amounts on the market this month, in view of the large applications at the Bank.
There is a move on foot to propose the expropriation of the Flores Road to the Provincial Government; this measure will be proposed in the Legislature, and we devoutly hope that the Executive will carry it into effect. Residents in Flores, who own carriages, have sent their carriage horses to the camp and take the tramway, in view of the awful condition of the road; it beats the Sahara desert.
Over 73,000 passengers and emigrants arrived in the Plate during the past year; the immigration office has been the busiest place in town during 1883. In 1879 over 75,000 passengers and emigrants landed on these shores, but the class of emigrants arriving today is vastly superior to that of former years. Over 60,000 "bon-fide" settlers arrived in 1883; of fresh capital and ... to the Plate. One of the ... gration has been the high percentage of young women, fully 25 per cent.
Twelve thousand shares and a million and a half Cedulas were delivered to the liquidation on Monday; the figures for November, October and September were much larger, especially as regards Cedulas E. In the share market there is a settled conviction that several large holders have sold out, and probabilities point in that direction.
The Iniziativa has arrived in Montevideo crowded with emigrants from Genoa; the Turin has also arrived. Steamers arrive in very large numbers and there is an excess of tonnage in ports, which affects freights. The growth of steam tonnage is ahead of our production.
The money market ruled easy this morning; discounts outside at least were quoted currently at 7 per cent. The situation on the Bolsa continues tight; there were takers of money this morning in the hall at 1 o/o per month on shares of the National Bank.
The exchange market shows no change; something reported done this morning at 47⅝.
The sales at the ring during official hours were:—
Cedulas—
For cash A 13,700 at 102
For cash E 31,700 at 89
For Jan. 3rd E 1,000 at 89
For Jan. 31st E 12,000 at 89
For cash F 33,200 at 86½-⅞
Sales, 208,600.
National Bank Shares—
For cash 310 at 130½-130-¼
For Jan. 5th 50 at 130
For Jan. 31st 2,951 at 131¼-132-131¾-¼ to 131¼-131
Sales, 3,311
The purchase of 16 leagues of the Canepa lands, close to the Murrietta Colony, is reported at reserved rates; Mr. Hughes purchaser. These lands are now in good demand, but many holders refuse to sell as it is known that the Railway from Santa Fe to Santiago, surveyed by Mr. Taylor, will be commenced this year.
We were wrong in supposing the new desks and furniture in the grand saloon of the English Bank of the River Plate were made in London. We find that they were all made here, in the workshops of Mr. Pollard. They are indeed a credit to his establishment.
Much enquiry is now made about the French colonists who are settling on the Pigue and Curumalan. It seems Mr. Casey is not the "empresario" of these colonies, but has sold ten leagues to a Frenchman for the purpose. The materials for the colonists' houses are being prepared at Mr. Turner's yard in the Boca. The land surveyor leaves at once to split up the lands into farms, and we hear that 80 families to the league is the figure at which the "empresa" is begun. These 800 French agriculturists will form a new departure for the South camps.
An English gentleman who owns 7 square leagues beyond the ditch and beyond Guamini, visited his land the other day for the first time, and found fully 10,000 animals feeding on his land belonging to squatters, cows, mares and sheep; the land cost him $10,000 % per league, magnificent pasture etc.
There are 40 European steamers posted to arrive in this port in January. The boys are still going to school who remember when 4 or 5 steamers in the month were our regular quota; and we recollect when Buenos Aires had as many steamers arriving from Europe in the month, as Patagones has now from the Capital. Nothing reflects more the giant growth of this place than this list of steamers for the month.
The Maskelyne has made a splendid run out in 22½ days; she brings back many friends whom we warmly welcome to the Plate.
People who want to judge of what is doing, should have gone on New Years' day to the Boca and see the Italia's passengers, about one thousand, land, and come up in the trams to town. It is only in New York such another sight could be seen.
It may interest the market to know that there are one hundred thousand sovereigns on the way out to the Italian Bank.
Application was made to-day to Dr. Plaza, our talented Minister of Hacienda, to have the Government surveys of the land in the Vth Section approved, and we feel quite certain that Dr. Plaza will move in the matter, as there are numerous English owners of lands on the Colorado waiting to have the surveys approved and their titles made out, to stock and settle very large tracts of splendid lands.
We salute our talented colleague Mr Lanuse who is now associated with the editorial staff of the *Prensa*, he will prove an immense acquisition to that newspaper, which marches "pari passu" with the progress of the country.
To-day was coupon day and a very large amount of fresh money came into our subscribers hands, some of whom spent the best part of New Years Day in cutting off their coupons from Cedulas and Nat. Bonds.
We publish in another column the annual report of the London and River Plate Bank, as also the balance sheet; the gross profits for the year amount to £96,000. We compliment Mr. Todd and his very able staff on the successful management of the bank in this market. The Warden affair is but a mere fleabite to an establishment doing so splendid a business.
One hundred and fifty thousand dollars % per league have been offered for one hundred leagues of camp near Carhue, which cost the proprietor only ten thousand paper dollars per league, who refuses to sell under ten thousand patacons per league, and he will get it yet.
Mr. Rich. Agar, manager of M. Forrester & Co., of Rosario, was welcomed on 'Change; he reports splendid progress up there, and a grand breakfast given to Mr. Callan on last Sunday morning by the merchants of Rosario who left same day for Santa Fé. If Mr. Callan succeed in bringing out one hundred thousand Irish farmers to settle with their families on the Murrieta lands up there, the merchants of Rosario will have good cause to rejoice at their hospitality to Mr. Callan.
Messrs. Congreve and Co.'s circulars, announcing the dissolution of the well-known firm of Congreve and Goddard, were given round to-day.
The retirement of Dr Mansilla from the Municipality, and of Sr Marco del Pont from the Municipal Comision de Hacienda, was very much commented on on 'Change, and not at all relished by the holders of Municipal Bonds. The board suffers a very great loss by the retirement of these gentlemen, and there is a strong suspicion in the market that the Municipality has been spending money rather fast, and that the funds in its treasury are very low. We note that Sr Lima, the manager of the Corrales, has also resigned.
The Villarino is back again in Patagones from the far South, and may be expected back here in a week, as she will probably remain a few days in Patagones where there is abundance of cargo awaiting her.
We have very favourable advices respecting the Murrieta lands, and learn that one portion say 50 square leagues will be at once stocked and settled on; our informant has been over that portion of the land which he reports as excellent, and says that there are "bona fide" farmers and agricultural colonists for every acre of this land in this country without going to Europe at all for emigrant families. It is something truly astonishing how the colonies in Santa Fe are now stretching out. We heard this afternoon of four new colonies being marked out for the plough and the homestead. The wheat crop of the colonies this year, is of superior quality to that of last year, but the average yield per square is under that of last year which, however, is more than compensated by the immensely increased area under wheat this year.
A colleague announces that 2½ leagues of land in Ajo have been rented at the rate of 110,000 % per league
Mr M. Fernandez has sold an estancia in the Bragado district, 3¾ square leagues of land, with house, cattle, and all, at reserved rates. Buyer, a German firm of "barraqueros" This is a business of several millions.
Arrivals in the woolmarkets were heavy this morning; prices continue weak, and in the Once quotations no longer reach $ 100 %.
Business ruled flat.
The house that took fire in the Calle Buen Orden was not insured; the conflagration was a small affair.
The Italian barque Consolitere has arrived in Montevideo with 10,000 fanegas of Cadiz salt. The P.S.N.C. Cordillera has also arrived in Montevideo; she will leave to-morrow for the Pacific. The Iniziativa has 1200 emigrants on board, all bound for this city—this is splendid news.
Telegrams from Montevideo announce the sale of 1000 pipes of tallow from the Ribes saladero at 17¾, and 100 do from Conforte's at 18.
During afterhours a few shares were sold for Saturday at 130 and for the end of the month at 130¾ and 131; the market closed with sellers at the latter rate. Twenty thousand Cedulas E were sold for the end of the month at 88½; the market closed with sellers at 89.

The *Pampa* tells a story of an ancient Member of Congress who sent a beautiful looking glass in the shape of a heart to one of the belles of the season. Her family, after much ado, found out the old gentleman's name and sent the gift back. This was too hard, as the old party evidently meant nothing but the most respectful admiration.

We thank Messrs Green and Johnson for the beautifully illuminated Almanack of the London and Provincial Fire Insurance Company which they sent us yesterday. They are agents for the Company, the subscribed Capital which is a million sterling.

El Miercoles 16 de Enero 1884
A las 2 p.m.
Remataremos a la mas alta postura y condiciones que se estipularan mas abajo, por orden terminante de su propietario, 65,000 hectareas de campos ubicados en la Seccion 2ª y 3ª de os Territorios Nacionales.
Los numeros que se ofrecen en venta son el 3, 4, 7, y 8 de la letra B de la mitad Sud del numero 23 y el numero 24 de la letra D, todos de la seccion segunda y el numero 3 de la letra A, seccion tercera Territorio Nacional.
Sos lotes 3, 4, 7 y 8 forman un cuadrado perfecto de 16 leguas, situado ventajosamente a diez leguas al Oeste de Trenque-Lauquen.
Por el telegrafo hace tiempo que nos hallamos en comunicacion diaria con este punto de creciente importancia.
La diligencia de Vallee cruza estos campos en su trayecto lejano al pueblo Victorica que se halla 35 leguas mas afuera.
Faltaba solo la locomotara para trasportarnos en dos dias de la capital de la nacion a la civilizacion naciente pero vigorosa de la frontera.
Felizmente esto se ha conseguido.
Los trabajos del ferro-carril del Oeste se han dividido en tres secciones.
La primera al 9 de Julio se ha abierta ya al servicio publico.
La segunda que va a Las Mellizas ya se ha empezado, y una vez terminado esto se emprenderan los trabajos de la tercera seccion que nos llevara a Trenque-Lauquen.
Dentro de dos años podemos pues, asegurar que estos campos estaran cuando mas a 8 horas de la ciudad de Buenos Aires.
Este solo hecho triplicara el valor de todas las tierras en esa direccion.
En cuanto a la calidad de la tierra de este lote de 16 leguas, nos referiremos a los informes oficiales del agrimensor Sr Maqueda quien los mensuro y amojono.
Dice el—"La calidad de estos campos es buena, siendo abundante en sus aguadas y pastos tiernos.
Hay tambien tres bosques de consideracion, de algarrobo y calden, cuya utilidad y riqueza es indisputable.
En toda la estension del campo hay 14 lagunas casi todas ellas de caracter permanente. Una de ellas de agua dulce mide 700 metros de largo por 400 metros de ancho con un buen monte a su alrededor.
Hay varios cañadones con pastos tiernos para ovejas.
Fuera de estas importantisimas aguadas dulces hay varios ojos de agua y jagüeles indios.
Los linderos son los Sres Unzue, Del Carril, Drysdale, Irigoyen y otros de igual importancia.
El lote de 10 leguas se haya igualmente bien situado.
Se compone de los numeros 3, letra A. de la seccion tercera la mitad Sud del numero 23 y el numero 24 de la letra D. seccion segunda de sus tierras.
Los numeros en venta son el 11, 19, 20 y 22 de la letra A, y el 1, 2 y 9 de la letra D, Seccion 3, Territorio Nacional.
Todavia existen alli los vestigios de las Toldarias de los Ranqueles, sus rancherias, sus corrales y sus jagüeles de riquisima agua.
Estos campos y los inmediatos a la Ciudad de Buenos Aires, son los verdaderos
Campos de pasto tierno
Los primeros por haber estado en el poder tranquilo de los Indios por mas de un siglo, y los otros por haber sido ocupados por los cristianos.
Los campos de pastos duros son los de la zona intermediaria, donde ni el indio ni el cristiano se aventuraban a permanecer por temor-e mutuamente.
Solo asi puede racionalmente esplicarse el hecho notable de que en la seccion octava se encuentran pastos tiernos iguales a los campos de adentro que valen hoy pesos 3,000,000 la legua.
El informe del agrimensor Alsina sobre estos campos dice textualmente asi:
"Estos campos que fueron ocupados por los indios Ranqueles se encuentran respecto de calidad y cantidad de pastos, montes, piso, etc, en identicas condiciones que los campos de Leubuco y Poitagüe, cuya superioridad es publicamente conocida."
"Dice el agrimensor Pico que los arboles de esta region son inmensos, entre ellos los hay que miden cuatro y media varas de circunferencia en su tronco principal abarcando con sus ramas un diametro termino medio de 3 varas."
Apesar que algunos colocan el Pueblo Victorica, ya una poblacion de 1500 almas, en el lote 23, los propietarios de estos campos tienen datos particulares de personas de esa localidad que les permiten declarar que se encuentra en el 22 el lote lindero, o sea en el corazon de estos campos.
Fuera de una infinidad de jagueles de agua riquisima el campo tiene las lagunas siguientes—Poitagüe, Auatmeluó, Lui Carreta, Tirlin, Utra Trigoin, Echoué, Quillal Lauquen, Quitripil, Antiqueo, Guada y varias otras de lluvia sin nombre.
Por planos y folletos ocurrir a nuestra casa, Alsina 78.
Los condiciones de pago son ¼ parte al contado, y el resto a una y dos años de plazo sin interes y con pagares hipotecarios.

El Jueves 10 de Enero de 1884
A las 2 p.m.
Remataremos a la mas alta postura y condiciones que se estipularan mas adelante, por cuenta y orden de su propietario.
3000 cuadras cuadradas campo flor, reputado como de los mejores de la Provincia y que en malos años como el que ha pasado ha mantenido 25,000 ovejas en legua y han tenido buen aumento.
Basta saber y recordar que los Sajones fueron fundados por el Sr. D. Juan Harratt uno de los primeros y mas inteligentes criadores de la Raza Merina, quien seguramente no habria elejido este campo, hace lo menos 35 o 40 años, si no lo hubiese reconocido como sobresaliente por su objeto.
Las 3000 cuadros seran divididas en lotes pequeños, para ponerlos asi al alcance de todos los bolsillos, dando al mismo tiempo opcion al primer comprador a tomar uno o mas lotes.
Creemos enteramente escusado llamar la atencion de los que se dedican a negocios de campo, sobre la calidad de la tierra y de los pastos, una y otro son de primer orden y pueden destinarse tando a la ganaderia como a la agricultura, sin temor de designar clase; ademas de esas ventajos tiene otra muy impor tante y es la proximidad a la capital, de la capital, de la cual solo distan estos campos un poco mas de 14 leguas, y 5 leguas de la estacion Jepener, Ferro Carril del Sud.
Una vez terminados los ramales que van a la Plata y Puerto de la Ensenada las facilidades para el embarque de todos los productos de este partido contribuiran un poco a aumentar el valor de esos campos.
Las personas que deseen inspeccionar el campo pueden dirijirse a Jeppener donde sale un coche correo los Martes y Sabados, y que los deja en la Estancia Los Sajones y con previo aviso habra alli un carruage especial.
Las condiciones de venta son sin base y al mejor precio.
Los lotes seran mensurados y amojonados una vez esconturados.

Testimonial from Alexr. Sinclair, Esq., Manager, *Herald* Office, Glasgow
Office of *The Glasgow Herald*,
Glasgow, 10th Nov., 1883
Gentlemen,
In connection with the Great Fire in Buchanau Street and Mitchell Street which besieged our premises on Saturday night last, I can say without reserve that your handy "Rapid" Fire-Engines, of which we have seven, did most invaluable service in the hands of our men by preventing the fire catching and in extinguishing it where it was burning. At one of the most critical moments, when the flames had seized upon one of our side rooms and were about to spread to the heart of the building, one of your Machines was applied to the burning parts with the most effectual and gratifying result.
I may add that had one or two of these Extinguishers been upon the roof of our neighbour, Mr Jenkins, the probability was that his building would have been saved, and we would thereby have been preserved from the extreme jeopardy we were in.
Yours truly,
(Signed), ALEXANDER SINCLAIR.

Extract from *Chambers's Journal*, 26th May, 1883.
"Knowing as we do that prompt measures taken at the first may save the premises, we have introduced into those of this Journal half-a-dozen handy little portable Fire-Extinguishers, termed the 'Rapid,' which seem all that can be desired. Prepared by L. ting this work the effort An infallible remedy to produce a correct and com- te volume of the marks of the English-speaking community.
In order to facilitate the easy finding of any mark in the book each partido will appear separately, but all printed in one volume and the names of marks placed in such alphabetical order as to make the book intelligible to all.
The object of the work is to enable the owners of horses, cattle or other property that bear their brands, to recover same should they be lost, stolen, or driven away by storms. Not a day passes without strange animals appearing on the camp of some estanciero who is only too willing to notify the proprietors of their presence if he but knew to whom they belong. A glance at this book will give all the knowledge required. A network of information will thus be spread throughout the country enabling the world to know the owners of animals that may have been either stolen or lost. The benefits that will accrue to stock-owners by such a book cannot be overrated.
The objects it will accomplish may be summarised thus.
Firstly—It will enable every person to know each others marks and thus prevent the systematic robbery of animals.
Secondly—It will give power to any person residing in a distant partido to recover for another by writing for his certificado any animal found in the possession of the unlawful holder.
Thirdly—It will save labour and anxiety to those who have now to ride day after day dampeando lost horses.
Fourthly—As nearly all foreigners here have national associations for the protection of their interests, this work will be a means of defending the vast interests of the Irish and British residents of this province.
Therefore every brand holder should avail of this opportunity of having his name and mark published in order to secure his property whether it consists of only a few animals or of thousands. Through advantages possessed by the publisher the books will be issued at a price that will bring them within the reach of all and will be sold throughout the province from San Nicolas to Bahia Blanca, and from Buenos Aires to Lincoln, so that whatever number of marks is received will be printed.
In order to collect the marks of the various partidos a house in each town will receive a small book for this purpose where they may be inserted.
Therefore persons desirous of having their marks to appear in the book can now register them on payment of fifteen dollars each at any of the following places:—
Buenos Aires, Mauricio Larrandé, Hotel del Estacion 11 Setiembre.
Mercedes, Llorente Cildoy Garcia & Co.
Suipacha, do do.
Chivilcoy do do.
Chivilcoy, Hotel Español.
Rragado, Llorente Cildoy Garcia y Co.
Navarro, Manuel Perez, Calle Suipacha.
Other towns will be named later on.
N.B.—In drawing marks clear and faithful copies should be given; by placing the boleta beneath the page of the book a facsimile of the mark may be traced through the paper.

Para todas las Erupciones cutaneas no hay remedio igual al Unguente Holloway, al que millares deben la salvacion, tanto de sus Brazos y Piernas como de su existencia.
Antes de comprar, examinese con mucha cautela el Rotulo en el Bote o la Caja, para cerciorarse si esta la direccion de 533 Oxford Street, London, pues si no esta, entonces se trata de perpetrar un descarado engaño.
☞ Se invitan a las personas que sean defraudadas por los vendedores que expenden "Las Pildoras y el Ungueno de Holloway" falsificadas para que se sirvan al comunicarme los pormenores e inmediatamente para formalizar procesos legales contra los Ofensores, y recompensare liberalmente a los Delatores por el trabajo que se tomen, comprometiendome a que no haya trascendencia de sus nombres.
